About Company

A Comprehensive Facility For Printing, Packaging And Corrugation Plant

With over 50 years of industry experience, a sprawling 1 lakh sq. ft. manufacturing facility, and a team of skilled workforce we have been providing exceptional service to our customers.

We believe that packaging is more than just a protective covering; it's a critical component of your product's identity and customer experience. At Pixel Print Pack we are dedicated to providing innovative and reliable solutions that ensure customers satisfaction and success.

Vision and Mission

Vision

Be amongst the industry leaders providing innovative packaging solutions across industries, enhancing customer value, consistently.

Mission

01

Enhance competencies, enable and empower them to Innovate manufacturing practices & processes

02

Increase business with existing clients, acquire new customers, enter new geographies & segments

03

Invest significantly in Research, Innovation and Analytics to keep upgrading our product offering.

04

Make organization system drive by refining existing processes and leverage IT to improve our efficiencies and decision making

05

Invest in new technology and capacity enhancement to cater to future growth

06

Build Compliant, Ethical and Sustainable Business for all stakeholders

07

Build Brand by increasing visibility across platforms

Infrastructure

State of the Art Manufacturing Facility

1 LAKH+

Square feet area
manufacturing
facility

Technically advanced
manufacturing unit

Our manufacturing facility is
equipped with the latest
technology, allowing us to handle
production of **50 metric tons of
per day.**

Our infrastructure is designed to
optimize production efficiency and
ensure seamless logistics for timely
deliveries.

Why Pixel Prints

Pixel Print Pack takes pride on offering end to end packaging solutions tailored to meet the unique needs of our customers. Here's why clients trust us:

**50+ years of
industry experience**

**Advance Machinery
and Technology**

**Highly Satisfied
Clients**

Quality Assurance

At Pixel Print Pack, quality is non - negotiable. We are an SOP driven company, adhering to the highest standards in every product we deliver. Our robust quality assurance processes include rigorous testing and inspection at every stage of production, ensuring that every product meets our clients' exact specifications. Our well equipped labs and expert staff prioritize safety, durability, and Visual appeal in all our packaging solution.

We maintain the highest standards in our operations supported by various SOP's:

Machinery Details

Pre - Press Machine

1. POLAR 115

2. SHENZO PRE-LAMINATION

Pre - Press Machine

1. HEIDELBERG - SM 102-7+L

2. 2-COLOUR PRINTER SLOTTER

3. ALPNA UV METALISED PRINTING

Machinery Details

Post Press Machines

1. SHENZO AUTO DIE CUT

2. BOX-TECH VELOCITY PLUS

3. CARTNEL PASTING

4. FLUTE LAMINATOR

5. CROSSGRAPH DIE CUTTING

5. MANUAL DIE CUTTING

Post Press Machines

1. VELOCITY PLUS

2. 3 PLY PASTING

3. PRINTER SLOTTER

4. THIN BLADE ROTARY

Machinery Details

Corrugation Machines	Details
1. 3Ply SINGLE FACER Board Line	Machine Size 2200mm
2. 2 Col Printer Slotter	Machine Max size 1200x1200mm
3. Auto Folder Gluer	operates at 120 boxes per minute
4. BOXTECH Auto Glueing Machine	operates at 300 boxes per minute

Other Machines
1. Fully Automatic Dry Lamination Machine
2. Window Machine
3. STICHING MACHINES
4. Flute Machine(E,N,B)
5. E-flute Laminator Machine
6. Rotary Punching

Quality Control Machines

1. GSM Tester - Weighing Balance

2. Bursting Strength Tester

3. Dial Thickness Gauge

4. Stiffness Tester

5. Moisture Meter

6. Scuff Resistance Tester

7. Cobb Tester

8. Light Box

9. Hot Oven

10. Peel Strength Tester

11. Box Compression Strength Tester

12. Steel Measuring Scale

13. Spectrometer

14. weight balance up to 5kg

15. Vernier Caliper

16. GSM Round Cutter

17. 10x10 CM Template

18. Gloss Meter

19. Slip Friction

20. 5x5 CM template

Corrugated Box

We offer boxes with various configuration of flute, including A, B, C, E, and F flutes, each designed for specific strength, cushioning, and durability to meet diverse packaging needs

A-Flute

A-Flute, one of the thickest flutes, offers excellent cushioning and stacking strength, ideal for heavy-duty packaging of fragile items like electronics, glassware, and furniture.

B-Flute

B-Flute balances strength and printability, ideal for retail packaging and displays. Though thinner than A-Flute, it offers good cushioning for food, beverages, cosmetics, and more.

C-Flute

C-Flute is widely used for its balance of cushioning and stacking strength. Versatile and durable, it's ideal for shipping boxes, food packaging, automotive parts, and textiles.

E-Flute

E-Flute, thinner than A, B, or C flutes, offers a smooth surface for high-quality printing while maintaining good strength. Ideal for retail packaging, cosmetics, electronics, and pharmaceuticals.

F-Flute

F-Flute, thinner than E-Flute offers excellent printability and a sleek finish. It's perfect for luxury, high-end cosmetics, and promotional packaging requiring fine presentation.

Mono Cartons

High-quality, customizable cartons with features like window patching, foil stamping, braille printing, and MET-PET lamination.

Liner Carton

These cartons are specially designed for storing liquids or semiliquids, with an inner protective lining of paper or aluminum to ensure airtight conditions.

Window Patching Carton

These cartons have a transparent window allowing a view of the product inside, giving customers a sneak peek while keeping the packaging intact.

Foil Stamping Carton

These cartons feature metallic holograms or custom designs using hot foil stamping ideal for branding and showcasing logos and unique packaging with a premium touch.

Braille Carton

These cartons have embossed product name to aid visually impaired customers. They are mainly used by pharmaceutical companies for clear, accessible products information.

Litho - Laminated Carton

Litho laminated carton enhance visual appeal with printed graphics while providing added strength. They utilize the principle that oil and water don't mix to ensure durability.

Met - Pet Carton

This laminated process uses PET film with metallic foil to achieve high-quality print and shine. ideal for luxury and decorative boxes to enhances both design.
